

Co-Active® Leadership Program

CTI's Co-Active® Leadership Program empowers you to recognize your capacity to lead in all areas of your life. Designed to uncover, deepen and build on your natural strengths as a leader, this powerful, experiential program (a series of four retreats held over a 10-month period) is guaranteed to identify and break through self-perceived limits and put you on the road to a deeper and richer expression of yourself as a leader.

CREATING FROM SELF

We all carry a self-protecting framework of beliefs and limitations that keep us disconnected from our fundamental purpose, innate strengths and gifts. In this retreat, participants will break free from the barriers of these self-imposed limits and reconnect deeply to their most alive and authentic self.

CREATING FROM OTHER

In all aspects of life, the key to successful leadership lies in one's ability to generate dynamic, authentic relationships. Building on the powerful learning and self-awareness from the first retreat, participants radically expand their ability to perceive and build on the inherent strengths and talents of others to create powerful alliances and achieve mutual goals.

CREATING FROM NOTHING

To create positive and lasting change, we need to be exquisitely aware of what is happening in the emotional field around us. Equipped with a powerful new understanding of oneself and others, participants are challenged to become fully present to the energetic field around them

and the wide range of creative opportunities that exist there.

CREATING FROM EVERYTHING

In these complex times, leaders must be able to remain centered and creative in the face of conflict and chaos. In this final retreat, participants learn innovative and valuable tools that free them to be true agents of change, intentionally creating whatever impact they desire regardless of the situation or circumstance. This level of leadership demands the integration of deep self-knowledge, global awareness, clear intention and potent self-expression developed over the course of this program.

“The Co-Active Leadership Program® at CTI is not just about taking away a bunch of skills; it's about making the most important decisions of your life.”

– Celeste Schenk, President,
American University of Paris
